Burpee's Gold Medal Dahlias

WE TAKE pleasure in presenting our catalog of Burpee's Specialties in Dahlias and Gladioli for the season of 1923.

As our stocks of many of the varieties are limited, we would suggest that you order early to avoid any disappointment. Orders will be booked in strict rotation as received; although shipments will not be made until spring.

The Dahlia may be called "the people's flower." They are seen everywhere, in gardens large and small alike, the sturdy plants crowned with magnificent flowers in colors so gorgeous and varied as to be almost indescribable. The Burpee novelties and newer varieties are beyond comparison and will give unequalled satisfaction. Burpee's Dahlias have been awarded four Gold Medals at the exhibitions of the American Dahlia Society.

The prices quoted are for strong planting roots and are all postpaid. For the convenience of customers who are not fully acquainted with the various forms of Dahlias, we have used the following abbreviations as a key to their classes:

C.=Cactus; H.C.=Hybrid Cactus; B.=Ball Shaped Dahlias; D.=Decorative; P.F.=Peony Flowered; P.=Pompon; Col.=Collarette.

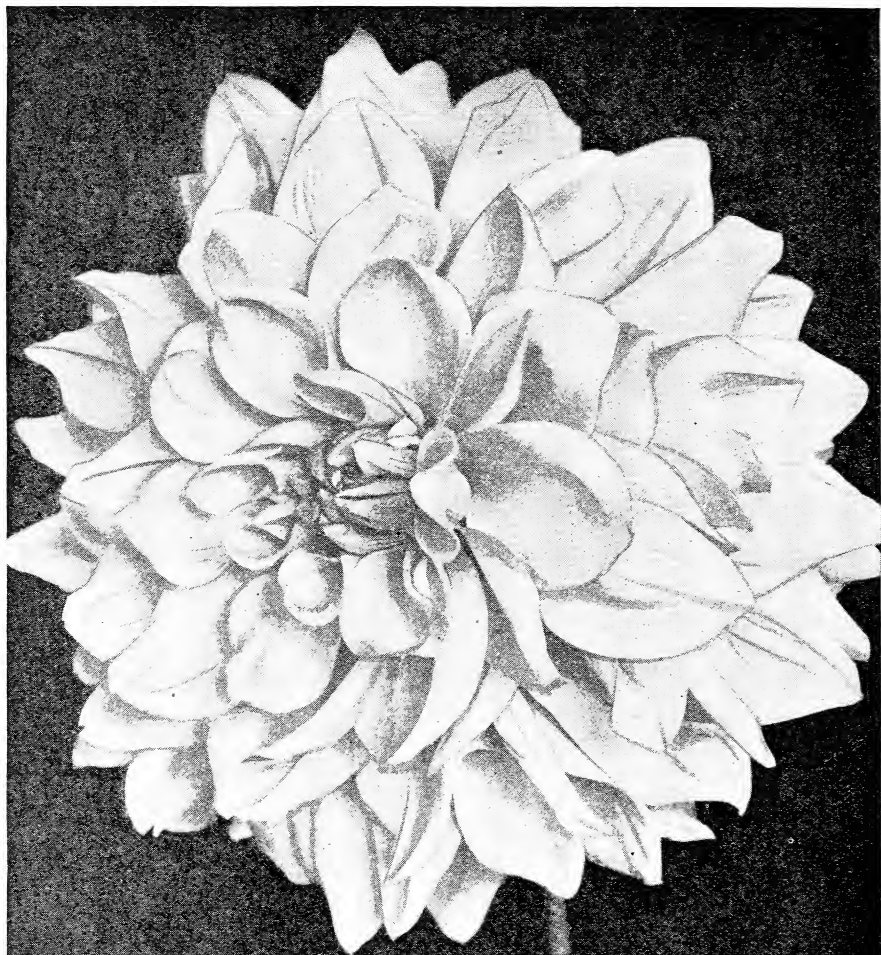

The illustrations on the opposite page will show at a glance the difference in these types. In the **Hybrid Cactus** type the petals are shorter than those of the Cactus type and they may be broad, flat, recurved or twisted. The **Pompon** type resembles in shape of flowers the Ball Shaped Dahlias, but the flowers must be under two inches in diameter. Within recent years the **Peony Flowered** Dahlias have become the most popular class with Dahlia lovers.

8250 Lilac Gem (P.F.) Burpee novelty for 1923. For garden decoration and for cutting this is one of the most dependable. The plants make a sturdy growth, attaining a height of 5 to 6 feet and become practically smothered with the large beautiful flowers. These elegant blooms are always borne on long and stiff stems. The color is a soft and pleasing shade of rosy purple with white suffusion. In general effect it is that of a soft rosy mauve or lilac. **\$1.00 each; 3 for \$2.70; 6 for \$5.00**, postpaid.

8226 Fordhook Gem (P.F.) Burpee novelty for 1923. This great beauty may be classed as a Peony-Flowered Cactus because the petals re-curve so much that at times they are almost fluted. Occasionally they come full in the center, resembling a Hybrid Cactus. In all of its forms it is a most beautiful and striking flower. The blooms are very large and usually measure from 7 to 9 inches in diameter. The color is an attractive shade of iridescent rosy pink, showing a suffusion of white on the central petals. **\$1.50 each; 3 for \$4.20, postpaid.**

8183 Quaker Maid (D.) Burpee novelty for 1923. Specially recommended for garden decoration and for cutting. The flowers are of the finest form, although they are only of medium size, usually averaging about 6 inches in diameter. They are borne, however, in the greatest profusion clear above the foliage on wonderfully long stems. The color is a bright and lively shade of amaranth-pink which becomes somewhat lighter toward the tips of the petals. \$1.00 each; 3 for \$2.70; 6 for \$5.00, postpaid.

8310 New Gladiolus—Fordhook Pink

Illustrated on the back cover from a greatly reduced photograph taken on Fordhook Farms. Fordhook Pink is an extremely early bloomer of sturdy habit, producing its flowers on stiff stems which are always erect and straight. The flowers are a most pleasing shade of clear pink, shading softer in the throat where we find a small creamy white blotch. It is, however, almost a self color throughout. The flowers are of great substance, averaging four and one-quarter inches in diameter, and last well when cut.

Fordhook Pink is distinct and outstanding from all others in this section. It is difficult to adequately describe its extreme beauty. The flowers have a sparkling and glistening lustre that immediately attracts attention. The blooms are well placed and open widely, reflexing very slightly as they age. **\$1.00 each; 12 for \$9.00**, postpaid.

Burpee's New Gladioli Seedlings

We take great pleasure in being in a position to offer a few of our seedling Gladioli, these being selected from several hundred seedlings upon which we have been working for nearly ten years. They have proven to be superior in every way; sturdy and strong growers, having the natural habit of our famous Fordhook Hybrids from which they have originated. We suggest ordering early as our stocks are limited.

Seedling No. 2 Bright rose-pink suffused salmon, softly flushed white. The three lower petals are blotched light primrose in the throat, on which there is a feathering of rose.

Seedling No. 3 A most pleasing shade of light mauve with white throat. Flowers and spikes of good size; splendid, sturdy upright habit.

Seedling No. 4 This is almost a self. Color light lavender showing very little white in the throat. The flowers are large, with long and sturdy spikes. Good in every way.

Seedling No. 5 A beautiful shade of carmine-rose with a suffusion of mauve. Lighter colored throat with light feathering at the base of the lower petals.

Seedling No. 6 Color rich bright rosy-mauve with darker mauve blotches on the three lower petals. Distinct and unique. Sturdy habit; the fine spikes are heavy and bold.

Seedling No. 7 A charming combination of colors. Salmon-pink with yellow throat, pencilled deeper salmon-rose on the lower petals. Of strong healthy habit.

Seedling No. 10 A flower of striking beauty. The color is bright orange-scarlet, the throat being rich yellow with small carmine blotches. Flowers of immense size with extremely long straight spikes. Of upright and sturdy growth. Bound to become popular.

Seedling No. 12 White with a light yellow blotch on the lower petals. Of perfect habit with large flowers borne on extremely long stems. A flower of great beauty and size.

Seedling No. 17 Rosy pink with yellow throat, faintly splashed and feathered deeper in the throat. A most dainty and pleasing variety.

Seedling No. 19 Deep crimson with orange suffusion; throat yellow, feathered and splashed carmine. The flowers are very large with long, stiff and upright flower spikes.

Seedling No. 362 A Primulinus variety of great merit. Color bright orange-crimson. One of the most "telling" varieties of this charming type.

Seedling No. 377 Primulinus. Color a rich deep mauve with yellow throat. Very distinct and outstanding, a shade that is much wanted in this family.

We offer the above seedlings at the uniform price of \$1.00 each; 12 for \$9.00, postpaid.

8368 Burpee's Fordhook Hybrid Gladioli

Burpee's Fordhook Gladioli are truly the finest Gladioli anyone could secure anywhere. They include almost every shade of creamy white, pink, salmon-pink, blush, rose, lavender-pink, bright red, scarlet, and crimson. Many of the flowers are self colored; others have large or small blotches of contrasting colors in the throat. Again others are delicately marked or pencilled in the throat. Some show fine picotee edges and others are fantastically striped and blotched. The "pastel" or art shades deserve particular mention. Spikes of immense size. **3 for 25 cts.; 6 for 45 cts.; 12 for 80 cts.; 25 for \$1.50; 50 for \$2.75; 100 for \$5.00**, postpaid. By express, at purchaser's expense: **100 for \$4.50; 1000 for \$42.00; 3000 for \$115.00**.
